

Rules for Members, Students, and Visitors

Please remember that this facility is not only a home but also a business. First impressions are important for the kennel. Prospective clients don't want to see dog feces or trash when they enter the drive. You must park up on the grass as close as possible to the fence and you must not cover the kennel's business sign up front.

Human Rules

1. Please let your dog "relieve" themselves outside the field and clean up any fecal matter deposited by your dog. There are pooper scoopers in the shed and deposit fecal matter in the bucket with the orange lid.
2. Do not let your dog(s) relieve themselves on the equipment. If this should happen, especially in the tunnels or chute, there is disinfectant spray and paper towels in the shed.
3. Throw away trash in garbage cans provided.
4. If you smoke, please extinguish cigarettes in your vehicles. (Do not throw cigarette butts on the ground)
5. If you take any equipment from the shed, please put up when finished.
6. Place chairs and table in the shed when finished.
7. Treat the equipment with respect so it will not get broken.
8. Children are not allowed on the field unless they are involved in a class and accompanied by an adult.
9. Do not allow children to climb on the equipment or the fence.
10. Wear appropriate clothing for running with your dog. Flip Flops are not allowed.
11. Humans should not engage in drinking alcoholic beverages before or during agility classes.
12. Any mistreatment or abuse of the dogs is not allowed, and if it occurs, you will be removed from class without a refund.
13. Make sure that all field lights are turned off, shed doors closed, and gate latched before leaving.
14. During mowing season, we have someone that mows the field on Monday. So the field needs to stay clear of equipment. **If you move any equipment on to the field, you must return it to where you got it from.**

Dog Rules

1. Beginner dogs and students may not work obstacles alone until cleared by an instructor. Also, do not attempt any obstacles that have not been taught or practiced in class. Do not raise bar height on jumps above what you practice in class.
2. At the discretion of the training directors or agility instructors, dogs deemed not under control will be dismissed from class and handlers will be given a list of available obedience resources in the local area. Dogs that are dog or people aggressive may not participate in classes nor work on the field.
3. Only 1 dog at a time on any piece of equipment.
4. Only flat buckle or snap collars may be used on dogs. Absolutely no training collars, choke collars or pinch collars (i.e. metal or nylon slip collars without stops) will be allowed when a dog is working. British slip leads will be allowed.
5. No dogs in heat will be allowed on the field.

THOSE UNWILLING TO COMPLY WITH FIELD RULES WILL BE ASKED TO LEAVE WITHOUT A REFUND.
